PROFESSIONAL EXPERIENCE

TUNCIS 2026 - Full-Stack Developer intern, Horizon University 07/2026 – 09/2026 | Sousse, Tunisia

- Architected & deployed the official bilingual (EN/FR) web platform for an international AI conference.
- Built registration engine with dynamic multi-currency pricing (DT/€) and attendance mode logic (In-Person/Online).
- Integrated serverless backend (Vercel), Neon PostgreSQL (Drizzle ORM), and automated email notifications.
- Developed paper abstract submission pipeline (PDF) and authored technical handover documentation.

King Word Building Contracting LLC - Web Developer intern, Instaar 08/2026 – 09/2026 | Dubai , UAE (remotely)

- Developed responsive, bilingual (EN/AR) website pages using **Next.js**, **TypeScript**, and **Sanity CMS**.
- Built interactive inquiry and career application forms using **React Hook Form** and **Zod** validation.
- Connected forms to **Supabase (PostgreSQL)** with file upload handling and automated email notifications.
- Integrated **Google Analytics 4** with a privacy-compliant cookie consent banner (**Consent Mode v2**).

PROJECTS

HoriXam - University Exam Management Platform, React · TypeScript · Node.js · Express · PostgreSQL · Sequelize · JWT

- Designed a multi-layer security architecture including RS256 JWT authentication, refresh token rotation, bcrypt password hashing, and brute-force protection.
- Implemented RBAC with unified role-based dashboards
- Applied API hardening via Helmet.js, CORS, rate limiting

MochiTask - Full-stack Kanban Productivity App (Solo · Deployed), React · TypeScript · Tailwind CSS · Node.js · Express · MongoDB

- Built a full-stack Kanban board with real-time task management across To Do, In Progress, and Done columns
- Designed and implemented a REST API with full CRUD operations connected to MongoDB Atlas
